Harkness Travel Program

After carefully reviewing information regarding vaccines for travelers on the Summer SYA Program in Spain our medical department has determined the vaccines listed below are recommended for all participants in this program.

**ROUTINE VACCINES** – All participants should be current on each of the vaccines listed.

- Tdap (within 5 years)
- Influenza Vaccine (for this season)
- Polio
- MMR
- Hepatitis B
- Meningitis
- Hepatitis A (2 doses)

Two doses of the Varicella vaccine if there has been no documentation of the chickenpox disease.

All travelers should be up-to-date on routine vaccines. **Families will be charged for any trip related routine vaccines administered on campus.**
