Harkness Travel Program

After carefully reviewing the proposed itinerary for the Summer Program in Guatemala, our medical department has determined that the vaccines listed below are required for all participants in this program.

**ROUTINE VACCINES**—All participants must be current on each of the vaccines listed.

Tdap (within 5 years)
Influenza Vaccine (for this season)
Polio
MMR
Hepatitis B
Meningitis
Hepatitis A (2 doses)
Varicella vaccine (2 doses, unless there has been documentation of the chickenpox disease).

**All travelers must be up-to-date on routine vaccines. Families will be charged for any trip related routine vaccines administered on campus.**

**NON-ROUTINE VACCINES:** These are **MANDATORY** for every traveler on the program, if there is a reason that the participant cannot / will not receive any of these vaccines then this program should not be considered. If participant has received any of these in the past, documentation must be provided as soon as possible to the Health and Wellness Center, but no later than December 15.

Typhoid (shot within 2 years, oral tablets within 5 years)
Rabies (series of 3 shots)
Malarone - co-pay is not included in the project cost of the program and families will be responsible for this charge.
